Teleconference	RSVP to Alison O'Connor by Monday 18 June 2018 Please dial **04 280 7347 Conference ID 79925034**

Gas consumer switching statistics for May 2018 available

The Gas Registry statistics recording gas consumer switching numbers for April 2018 are available here. There were 3,780 completed customer switches during April 2018 – 68 more than March 2018, and 352 more than April 2017.

For the last couple of years switching numbers and the time they take to complete have been relatively stable. In the last 12 months we saw on average 3,820 switches taking place a month and they took on average two days to complete. During that time the highest numbers of switches occurred in August 2017 (4,352) and January 2018 saw the lowest (3,231).
