Part 3**Powers and duties of gas operators and other owners of gas fittings****23 Protection of existing fittings**

Any existing fittings, lawfully fixed to or lawfully installed over or under any land that is not owned by the person that owns the fittings, shall continue to be fixed or installed until the owner of the fittings otherwise decides, and no person other than the owner of the fittings shall have any interest in any such fittings by reason only of having an interest in the land.

24 Rights of entry in respect of existing fittings

- (1) Any person that owns any existing fittings may enter upon land for the purpose of gaining access to those fittings and may perform any act or operation necessary for the purpose of—
 - (a) inspecting, maintaining, or operating the fittings:
 - (b) in the case of fittings the construction, erection, or laying of which had not been completed before 1 January 1993, completing the fittings.
- (2) A certificate under the seal of the owner of any existing fittings containing a statement that a specified fitting was installed (in whole or in part) before 1 January 1993 under the authority of the Petroleum Act 1937 or the Gas Act 1982 (or any Act repealed by either of those Acts) or the Electric Power Boards Act 1925 or the Local Government Act 1974 or the Public Works Act 1981 or any local or private Act shall be admissible in evidence in any proceedings and shall, in the absence of proof to the contrary, constitute proof of that statement.

25 Construction or maintenance of fittings on roads

- (1) Except as provided in subsection (2), a gas operator may from time to time construct, place, and maintain fittings in, on, along, over, across, or under any road, and for any of these purposes may—
 - (a) open or break up any road:
 - (b) alter the position of—
 - (i) any pipe for the supply of gas; or
 - (ii) any pipe (not being a main) for the supply of water; or
 - (iii) any telecommunications line; or
 - (iv) any electric works—

that are laid or placed in, on, along, over, across, or under that road:

- (c) alter, repair, or remove any fittings so constructed, placed, or maintained, or any part of any such fittings.
- (2) No gas operator may exercise the powers contained in subsection (1) otherwise than in accordance with such reasonable conditions as may be prescribed by the local authority or other body or person having jurisdiction over the road.
- (3) Without limiting the generality of subsection (2), a local authority or other body or person having jurisdiction over a road may impose under that subsection, in relation to any work undertaken by any gas operator, a condition requiring the gas operator to meet the reasonable costs and expenses of that local authority or other body or person—
 - (a) in processing any notice given under section 26(1) by the gas operator in relation to the work:
 - (b) in supervising the carrying out of the work, where such supervision is necessary in the circumstances of the case.

25A Criteria for setting reasonable conditions

- (1) In setting, varying, or revoking reasonable conditions under section 25(2), the local authority or other body or person having jurisdiction over the road concerned may consider all or any of the following matters:
 - (a) the safe and efficient flow of traffic (whether pedestrian or vehicular):
 - (b) the health and safety of any person who is, or class of persons who are, likely to be directly affected by the work on the road:
 - (c) the need to lessen the damage that is likely to be caused to property (including structural integrity of the roads) as a result of work on the road:
 - (d) the compensation that may be payable under section 51 for property that is likely to be damaged as a result of work on the road:
 - (e) the need to lessen disruption to the local community (including businesses):
 - (f) the co-ordination of installation of other networks:
 - (g) the co-ordination with road construction work by the local authority or other body or person who has jurisdiction over that road:
 - (h) the need of the gas operator to establish a gas network in a timely manner.

- (2) Nothing in subsection (1) limits a local authority's or other body's or person's ability to impose reasonable conditions under section 25(2).
- (3) However, a condition requiring a network operator to increase amenity values (rather than to merely maintain them) must not be imposed unless the work to be done is in an area identified in a district plan as an area in relation to which, under the district plan, there are particular considerations, or rules or requirements, relating to amenity values.
- (4) If the cost to the gas operator of complying with a condition referred to in subsection (3) is higher than it would have been if there were not a requirement to increase amenity values, then the person imposing the condition must pay that increase in cost.

 - (a) the local authority or other body or person having jurisdiction over the road to which the work relates; and
 - (b) the owner of any pipe, telecommunications line, or electric works that are laid or placed in, on, along, over, across, or under that road and that will be affected, or are likely to be affected, by the work.
- (2) Every such notice shall be in writing, and shall specify the location of the proposed work, the nature of the work to be undertaken, and the reasons for it.
- (3) Within 15 working days after the receipt of the written notice of the intention to undertake work, the persons who are given a notice pursuant to subsection (1) shall notify the gas operator in writing of any conditions imposed pursuant to section 25(2).
- (4) Where a person who is given a notice pursuant to subsection (1) fails to notify the gas operator of the conditions imposed pursuant to section 25(2) within the period referred to in subsection (3) of this section, no such conditions may be imposed, and the gas operator may commence work.
- (5) Where any such work is rendered urgent and necessary by any defective equipment, or other emergency, the gas operator shall be excused from complying with the requirements of subsection (1) before commencing the work, but shall give the information required by subsection (2) as soon as practicable thereafter.

43H Low fixed charge tariff option for domestic consumers

(1) The objective of this section is to enable the making of regulations to ensure that gas providers offer a low fixed charge tariff option or options for delivered gas to domestic consumers that will assist low-use consumers and encourage energy conservation.

(2) In this section,—

delivered gas includes components like gas supply, line function services, customer service, meter provision, and meter reading services

fixed charge means a charge levied for each customer connection in currency per time period (for example, cents per day)

(a) requiring gas providers to make available to domestic consumers 1 or more tariff options that include a fixed charge for delivered gas to dwellings at not more than a specified amount:

- (6) If the components that make up the delivered gas are unbundled, regulations may be made under subsection (3) for each component, or group of components, of delivered gas to ensure that the objective of this section is achieved for the aggregate of all the components.
- (7) Subsection (6) applies regardless of whether different components of delivered gas are supplied by the same gas provider.
- (8) Regulations made under subsection (3) may provide for the way in which the total charge of the low-use domestic consumer is to be assessed, which may be (without limitation) calculated with reference to national data or the data relating to any gas retailer or gas distributor.
- (9) The Governor-General may, for the purpose of assisting retailers to deliver low fixed charge tariff options, by Order in Council made on the recommendation of the Minister in accordance with sections 43I to 43P, make regulations for all or any of the following purposes:

 - (a) about contracts, offers, advertising, or promotion relating to the supply of delivered gas, or components of delivered gas, to domestic consumers; or
 - (b) information that is necessary for the purposes of calculating the total charge for the low-use domestic consumer.
